cub

Activity 2: Worksheet!

4.2 Growing – Period 1

Name: _____ Class _____

LO: Describe how animals and people grow and change.

Lily has a pet dog. She used blocks to measure how the dog grows. You can see the results in the block graph.

The number of blocks	5					
	4					
	3					
	2					
	1					
		2 months	4 months	6 months	8 months	10 months

1. How many bricks tall was the dog after 4 months? _____

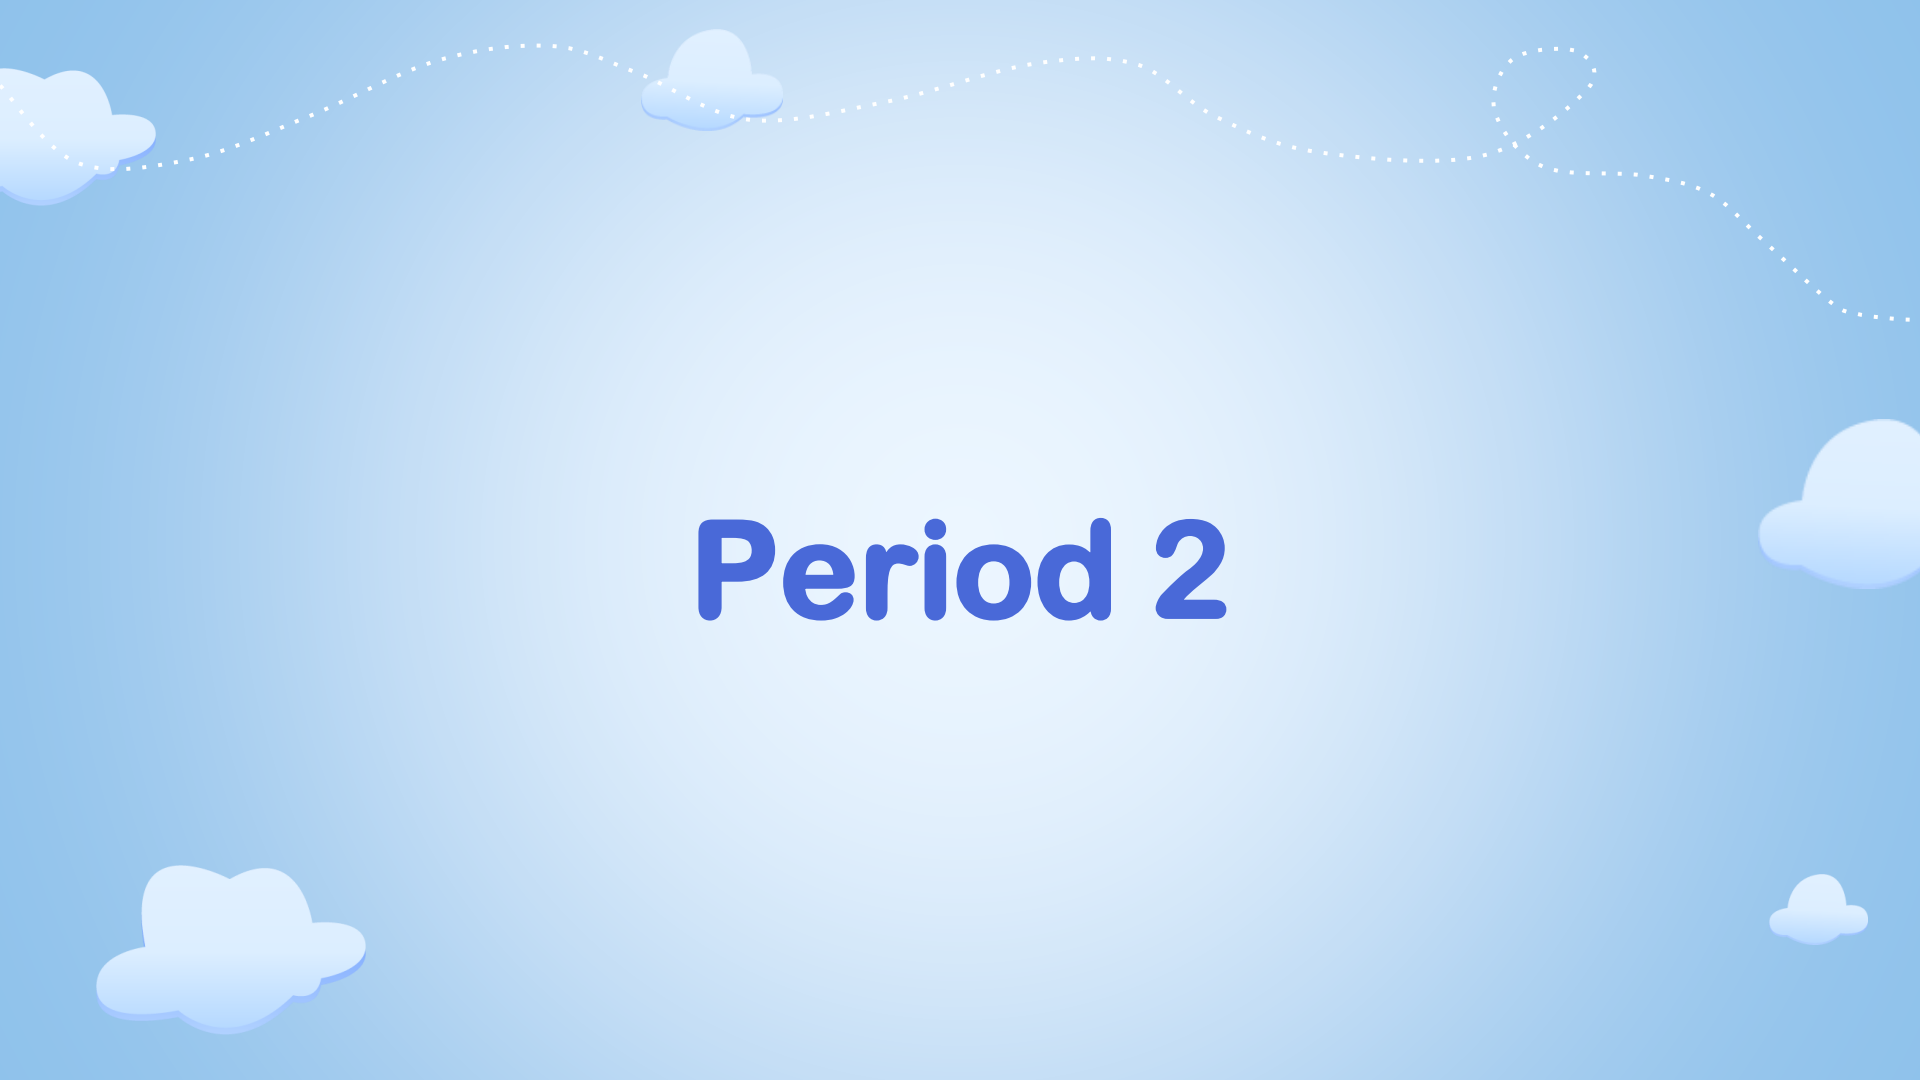

2. Is the pet taller at **4 months or 8 months**? _____

3. Does the pet grow bigger from **2 months to 4 months**? _____

4. The pet was not measured at **8 months**.

Look at the pattern.

How many blocks tall do you think it was?

A blue gradient background with white clouds and a dotted line. The text "Period 2" is centered in a bold, dark blue font.

Period 2

LO: Describe how people grow and change.

I can name the stages of growth.

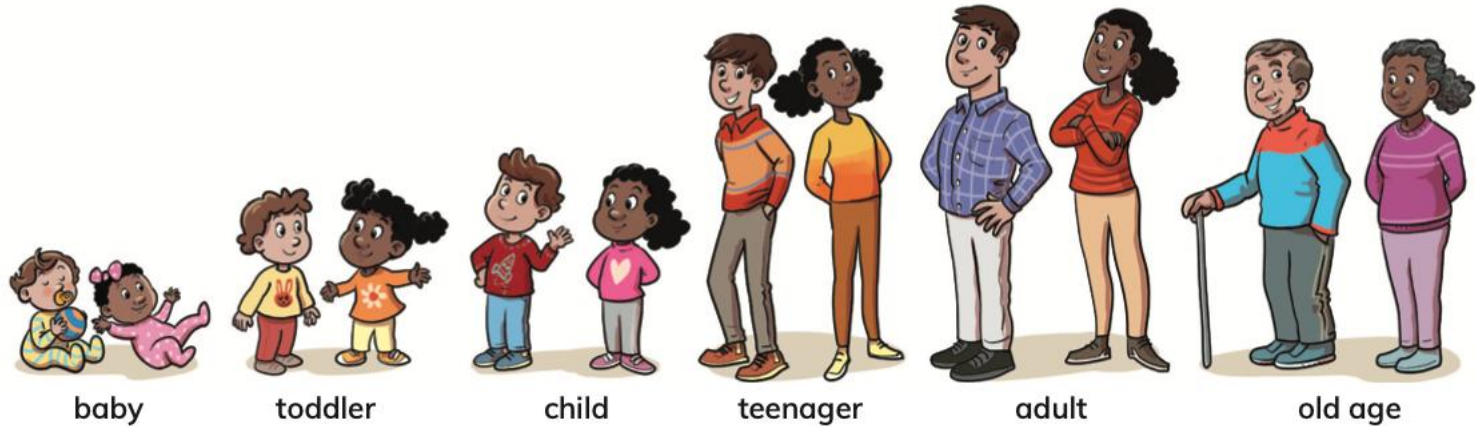

I can say how people grow bigger.

I can work with my friends to make a mini book about how people grow and change.

How humans grow

These pictures show how humans change as they grow older.

Let's Practice

These pictures show how humans change as they grow older.

Period 3

Focus

1 How will this baby monkey change as it grows?

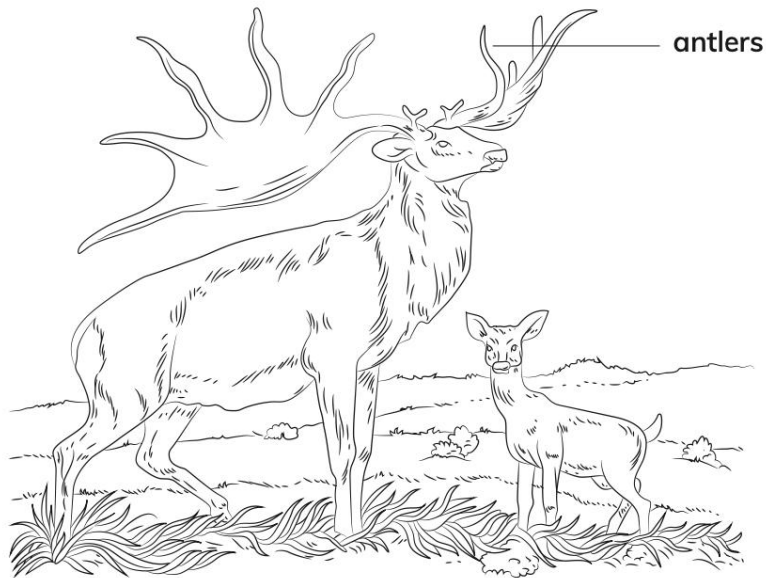

Put a tick ☐ or a cross ☐ for each sentence.

- a The baby monkey will grow taller.
- b The baby monkey will grow more arms.
- c The baby monkey will grow longer fur.
- d The baby monkey will grow feathers.
- e The baby monkey will grow a longer tail.

☐☐☐☐☐

Practice

2 Do these things change or stay the same as the baby deer grows?

Write these words in the correct places.

changes

stays the same

a Has antlers _____.

b Number of legs _____.

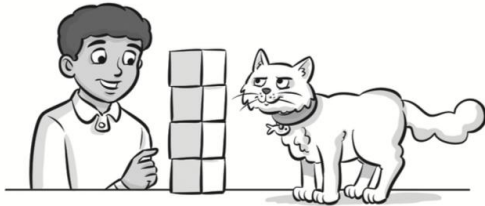

c Height _____.

d Has a tail _____.

e Pattern on fur _____.

Challenge

Sam has a pet cat. He used bricks to measure how the cat grows. You can see the results in the block graph.

Number of bricks tall	6						
	5						
	4						
	3						
	2						
	1						
		2 months	4 months	6 months	8 months	10 months	12 months

3 a How many bricks tall was the cat after 4 months? _____

b How many bricks tall was the cat after 8 months? _____

c Sam forgot to measure the cat at 6 months.

Look at the pattern in the results.

How many bricks tall do you think the cat was at 6 months?

d Why does the cat stop growing bigger after 10 months?
