forest

ocean

desert

forest

2

It's a _____.

arctic

ocean

desert

desert

3

It's the _____.

Arctic

ocean

desert

arctic

4

It's the _____.

arctic

ocean

desert

ocean

5

It's a _____.

forest

ocean

desert

desert

1st Clean your whiteboard.

2nd Put your things away.

3rd Sit nicely.

plenary:

Habitats are very different.
Can you read these **nouns**?

plants

animals

few/ no plants

few/no animals

5-minute rest:

What Animal Am I?

turtle

What Animal Am I?

snake

What Animal Am I?

lion

What Animal Am I?

giraffe

What Animal Am I?

penguin

What Animal Am I?

eagle

What is a habitat?

It's a _____.

jungle

ocean

desert

jungle

What animals live in a jungle?

What animals live in a jungle?

What animals can you see?

Guided practice:

A habitat gives living things everything it needs to live.

Can these habitats give these animals what they need to live?

Here are some habitats we will learn about:

arctic

Forest

Ocean

desert

Comparing Habitats

Desert

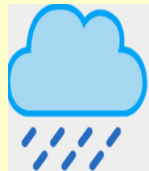

Rainforest

The desert is dry but the rainforest is wet.

wet

dry

Desert

Arctic

The desert is hot but the Arctic is cold.

hot

cold

Desert

Arctic

The desert has no plants and the Arctic also has no plants.

no plants

no plants

Rainforest

Arctic

The rainforest has plants but the Arctic has no plants

no plants

plants

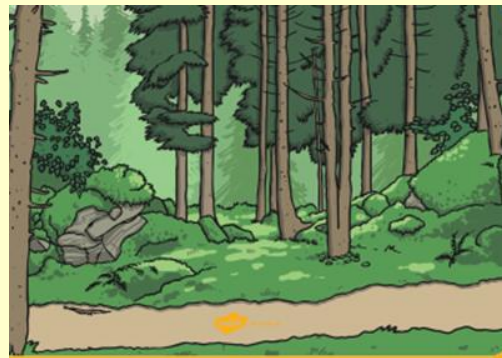

Rainforest

Forest

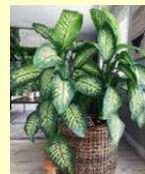

The rainforest has plants and forest also has plants

plants

plants

Choose the best description of a desert.

Desert

A

lots of animals

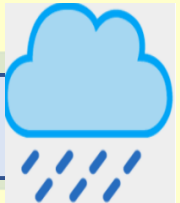

B

hot

C

wet

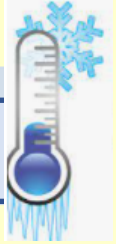

Polar regions

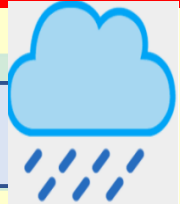

A

cold

B

wet

C

lots of animals

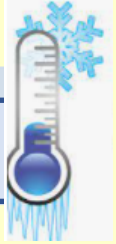

Rainforest

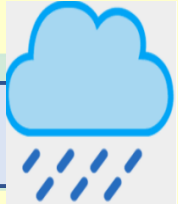

A

cold

B

wet

C

no plants

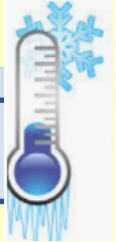

Farm

A

cold

B

no plants

C

animals
